

MAXIMILIAN'S FOLLY: DIAMOND & DRAMA QUEENS AUGUST (18" PATTERN)

Our *Diamonds & Drama Queens* pattern for August is inspired by the **Maximilian Emerald**, a 21.04-carat Columbian emerald. It was allegedly owned by Ferdinand Maximilian Joseph, archduke of Austria. Maximilian was persuaded by Napoleon III to depose the existing emperor of Mexico, Benito Juarez, and take his place. Maximilian and his wife Carlotta were crowned Emperor and Empress of Mexico in 1864. He was executed by troops loyal to Juarez just three years later when Juarez retook the Mexico City.

The gem came into possession of the Cartier brothers who set it with baguette diamonds on either side. Marjorie Merriweather post purchased it in 1929 and later donated it to the Smithsonian in 1964.

I fell in love with this emerald's bluish green hue that includes flashes of bright acid green. The special Maximilian Emerald green colorway is therefore an analogous colorway that blends colors on both the blue-side and the yellow-side of green. I also thought you all might need a bit of a piecing break; this pattern only has 44 facets.

MAXIMILIAN'S FOLLY: DIAMOND & DRAMA QUEENS AUGUST (18" PATTERN)

A - Lightest Light (or White)

E – Dark

B – Light

F - Darkest Dark

C –Medium-Light

G – Background (White or Black)

D – Medium-Dark

SUPPLIES

- Freezer paper – You can purchase a roll of freezer paper from the grocery store (Reynold's Freeze Paper). Be sure that you're not purchasing wax paper or parchment paper. Neither of these products will work with this project. You can also purchase pre-cut sheets that are commercially available. One product is Quilter's Freezer Paper by C&T Publishing, available on Amazon.com.
- Highlighter pen (if you're going to join your pattern sections together with double-sided roller tape, you'll need a 2nd highlighter of a different color)
- Double-sided tape roller or Washi tape (depending on how you wish to assemble the freezer paper pattern prior to cutting it apart)
- Fabric marking chalk or pen
- 18" or 24" ruler with a 1/4" measurement
- Small ruler (12") with a 1/4" measurement
- 7 envelopes or plastic baggies to store your facets
- Domestic sewing machine and thread assortment (neutrals or colors that match your fabrics)
- Scissors and rotary cutting tools (cutters and mat) – We'll be cutting both paper and fabric, so if you prefer to use 2 rotary cutters (one with an old blade and one new one) that would be ideal.
- Iron and ironing pad (or board)
- Pins, clips, or fabric glue
- 7 Fabrics according to the colorway chart

INSTRUCTIONS

Preparation

1. Print pages 2-5 of this document with the "Actual Size" print option selected onto a piece of 8.5" x 11" freezer paper. Printing "Actual Size" will ensure that your segments will print out so that your block will be exactly 12" square. This is the chart you will cut up.

2. Print pages 2-5 of this document onto regular paper using the "Actual Size" setting. This will be the copy you will pin or tape to your quilt room wall. It will be your KEY to help you put your block back together.

3. Identify 7 fabrics in a range of values to use in your block. On page 6, you'll find a pattern with just the color codes in place. You can use this to experiment with colorways. I've also provided a Colorway diagram featuring the pattern in five colorways with both black and white "G" codes.
4. Attach a snippet of fabric next to each code of the corresponding value (i.e., light, medium, dark) OR label your fabric by writing the code on the selvedge edge or corner of the corresponding fabric.
5. Gather 7 business size envelopes or plastic baggies in which you'll store your facets once cut apart. Label them with the letters A, B, C, D, E, F and G to correspond to your fabric codes.

Cutting Your Facets

6. Join the sections of your pattern with either double-sided tape (by placing the tape on the tab provided and overlaying the adjacent half over it, aligning the facet lines) OR with Washi tape. You can place Washi tape directly on top of the pattern since it won't melt under an iron.
7. Once your freezer paper pattern is assembled with tape, trace the inside edge of the block. This is the visual clue that will remind you to place the edges of these pieces on the grain lines when you're ironing on the facets to the fabric. **Note:** Because I'm going to encourage you to place all the long, straight edges of the facets on the straight-of-grain *rather* than the edges that make up the section edge, you won't need to trace on both sides of the section lines with the highlighter.
8. If you are joining your pattern sections with the double-sided tape, be sure to mark the horizontal and vertical join lines with X's in your second highlighter color. This will be your visual clue to NOT cut apart the facets on these lines. Your chart may look like this:

9. With a ruler and rotary cutter, you reserve for cutting paper, cut apart the freezer paper template and sort facets into the envelopes or baggies by letter code. Be sure NOT to cut apart facets on the horizontal and vertical join lines (marked with the X's).

Note: If your ruler slips off the line a little bit, no problem! Just don't trim it up. Just be sure that you can still see any hashmarks on either side of the cut.

10. Arrange facets on the RIGHT SIDE of the fabric that corresponds to their color code, allowing $\frac{3}{4}$ " of space between each facet. Remember to lay the edges of your background facets along the grain lines. Then lay the long edges of all the other facets on the straight of grain. Press with a hot iron, no steam.

If the freezer paper isn't adhering very well to the fabric, try heating the fabric first and then laying the freezer paper piece on top of it and press it down. (If you have lots of sizing or dye in your fabric, you may want to pre-wash your fabric. Extra chemicals sometimes prevent freezer paper from sticking to fabric.)

11. Once all your facets are ironed to the RIGHT SIDE of the fabric, relabel 4 of your envelopes or baggies with the numbers 1 through 4, corresponding to the 4 sections of the block.
12. Using a rotary cutter and small ruler, cut out each facet with a $\frac{1}{4}$ " seam allowance. Take care to make these $\frac{1}{4}$ " seam allowances as accurate and consistent as possible. Place the fabric facets in your envelopes or baggies by section number (i.e., 1 through 4).
13. Once all your facets are cut out and stored in their respective envelopes, remove the facets from the envelopes one by one and lay them out in numerical order to make sure that one hasn't accidentally wandered away.

Piecing Your Gem

14. Arrange facets into their piecing order using the chart you put up on your quilt room wall as your guide.

NOTE: I have created a "Piece Plan" that provides a step-by-step process to assemble the block. You'll find it at the end of this document.

15. To piece your facets, place RIGHT SIDES together (freezer paper will be inside the fabric sandwich).

MAXIMILIAN'S FOLLY: DIAMOND & DRAMA QUEENS AUGUST (18" PATTERN)

16. Peek inside the seam allowance and line up the hash marks on each side of the two pieces. Ensure that the corners of each facet line up together.
17. Pin carefully along the seam OR use a clip OR use a glue product to secure the 2 pieces together.
18. Identify the 1/4" seam guide on your machine's plate.
19. Position the pair of pinned facets under the presser foot so that the edge of your fabric sandwich is just a needle-width to the left of the 1/4" seam guide. This will prevent you from sewing into the freezer paper on the inside.
20. Stitch the seam line using a regular stitch length (i.e., 2.5). I backstitch at the beginning and the end only because it's been my habit to do so for 20 years. Some have said that's not a necessary step for them. Habits die hard!
21. Open the facets with both seams to one side. (Press to the darkest side OR the side that has the fewest intersecting seams.)
 - a. If there is a gap between the edges of your freezer paper, you can either re sew a little bit closer to the 1/4" seam guide OR you can pick up one of the templates and iron it next to the seam. Just be sure to trim the seam allowance down to 1/4".
 - b. If you have sewn into the freezer paper, give the two pieces a little tug to see if this frees the freezer paper. If you've really munched the freezer paper, consider ripping that section and re sewing. Gaps and tucks change the position of the hashmarks along the sides of the 2 facets, which makes it a bit confusing when trying to match it up to its adjoining unit. In the end, though, perfection is NOT a priority and, once you've removed all the paper from your gem, no one will know the difference!
22. Continue to stitch the facets together, retaining the freezer paper on the front of each piece.
23. If facets come loose, simply iron back on.

TIP: If you want to remove the freezer paper after piecing major sections together, be sure to draw the hash marks onto the seam allowance **before removing the freezer paper.**

24. Once the gem is complete, remove the remaining freezer paper pieces and store them in your envelopes or baggies by color code if you plan on using them again. You can typically get 2 uses out of regular freezer paper, but I know some people who can squeeze 3 and even 4 uses out of their freezer paper pieces!
25. If little bits of freezer paper are stuck in the seam line, use a pair of tweezers to remove. If they are stubborn, try using seam ripper to remove them by pushing the bit of paper from the front to the back side of the fabric. Use tweezers to pull from between the seams.

CONGRATULATIONS!
